

Sponsor Trees

Thanks

Abacus Printing Co Ltd.

For sponsoring the planting of 350 Trees

In a village project in Ethiopia to effectively address environmental degradation

These fast growing, beneficial trees will protect the fragile and eroded lands so that families can continue to live in dignity and in harmony with the natural resources of their lands. These trees will remove approximately 350 Tonnes of CO₂ from the global atmosphere within their life time, replacing it with life giving oxygen, and natural resources. Furthermore the trees 'heal the land' while protecting and assisting the natural return of past diversity.
